

Junior Conservation Officer

Are you a new graduate with a degree related to environmental studies or the protection of the environment, and you are passionate about working in conservation? Then this junior position with Tajikistan Nature Foundation (TNF) could be an ideal and unique starting place for your career! By working for TNF, you get the opportunity to work in a team of international conservationists and develop your research, GIS, and conservation skills.

TNF is a conservation organization that has worked to protect and preserve Tajikistan's wildlife and nature since 2008. TNF is Tajikistan's longest-established conservation NGO. Our guiding principles are to promote conservation on the ground through the involvement of local communities and science-based initiatives, making conservation effective and sustainable in the long term. We are dedicated to preserving wildlife and nature for future generations through our conservation work across the country.

We are looking for individuals who have/are:

- A passion for nature, wildlife, and people.
- A degree related to environmental studies or similar is favorable. This may include a degree in a field such as biology, ecology, environmental management, geography, or environmental science.
- Competencies in using Microsoft Package software are essential, and experience using GIS is a plus.
- Past volunteering experiences and internships.
- The ability to work independently, as well as with a team to support collective project efforts.
- Reliable, organized, and detail-orientated.
- Strong digital research skills.
- Effective and self-driven communication skills.
- Experience in writing reports.
- A high level of written and spoken English. Knowledge of Russian and Tajik languages is also of interest.

Support for project activities is currently most needed for:

- Conducting biodiversity surveys.
- Technical reporting.
- Developing models and maps using GIS software.

Participants will:

- Gain practical and professional experience in conservation, environmental issues, socio-economic development, research, technical reporting, and GIS.
- Work full-time, 5 days a week.
- Participate in meetings with colleagues, experts, and communities.
- Support staff in developing technical reports, conducting biodiversity surveys, and developing GIS maps.
- Participate in field missions across Tajikistan.

How to apply:

Please submit the following documents before the end of January 31, 2024:

1. Statement of Interest: A short statement of interest describing your relevant skillsets to this job position based on your previous experiences. Please include your preferred availability dates and starting date.
2. Curriculum Vitae: A detailed CV 1 to 2 pages in length.
3. Required Documents: Please provide us with proof of your educational background.

Please submit all documents to the following email address: tourism@tajwildlife.com
